An online update for supporters of Canadian Feed The Children

We hope you enjoy reading this update from Canadian Feed The Children. Your ongoing support helps children thrive in Bolivia, Canada, Ghana, Ethiopia, Haiti, Uganda and Sierra Leone. **Thank you!**

YOUR SUPPORT IN ACTION

March 2010

Growing Confidence

Madam Jama is a member of the Zoosali Women Organic Farmers Group in Ghana. She cultivated groundnuts on her parcel of land and says, *"The resource strength of my group has been increased through the assistance of RAINS (our community partner) and Canadian Feed The Children. All of us in the group are more energetic than ever to take good care of our crops. We also received training that is helping us share resources, ideas and information within the group."*

Healthy Childhood

Just a few of the thousands of children in Katabi sub-county, Uganda, who benefit from mosquito nets in the home. The treated nets protect against deadly malaria and are distributed by our community partner HUYSLINCI, a child-centred, professional social work organization that focuses on the social-cultural, educational and rights aspect of child development.

A New Life

A baby girl was abandoned in a shack when she was only a few days old. A neighbour heard the baby crying and brought her to House of Hope orphanage. Since that day in 2004, young Leite Katheline (centre) has called House of Hope home. Thanks to your support of our programs for children in Haiti, she has received nourishing food, vital health care and primary education. Today, she is an active, healthy child, enrolled in school and happily playing with friends.

STAND UP FOR CHILDREN

Home Safe

Canadian Feed The Children is in the business of helping children thrive. We work with families and communities to keep vulnerable children home safe and our supporters have helped do this for thousands of children around the world. Children affected by poverty, conflict and disaster face untold physical and emotional challenges. Your contributions to our **Home Safe campaign** help us bring immediate and long-term support to children who are struggling without basic needs. **Learn more here.**

IN FOCUS

Haiti Reflections

Earlier this month, Program Manager Bella Lam was in Haiti to monitor our ongoing response to the January 12 earthquake. She visited the communities we support, met many of the children and families who are struggling to stay healthy in the aftermath, and provided some thoughtful reflections on her visit.

Read Bella's journal here.

WHAT'S NEW?

Canadians For Haiti

Canadians from coast to coast to coast were moved to action by the plight of Haitians when the January 12 earthquake struck. We were honoured to be in a position to move quickly to provide emergency aid and to help the families we support start to rebuild their lives. Every donation received from current and new supporters has made a very big difference. Many groups have supported the children of Haiti through their contribution to Canadian Feed The Children. **Check them out here.**

Charity Fraud Awareness Quiz

CanadaHelps.org is a wonderful registered charity that helps all types of charities accept donations online. The organization has facilitated over \$100 million in charitable donations through its website since it was launched in 2000. CanadaHelps has partnered with Capital One to raise awareness of Fraud Prevention Month and invites you to take its Charity Fraud Awareness Quiz to earn a chance to win \$20,000 to donate to the charity of your choice.

Take the quiz now.
